

Black Crag, Stake Pass

Central Buttress Direct Paul Bennett

WARNING

You climb at your own risk. Climbing is a dangerous activity carrying the risk of serious injury or death. If you climb, the presumption is that you are aware of and accept these risks together with responsibility for your activities and your safety.

You are the sole judge of conditions, the suitability of any chosen route, the ability of the party and you take sole responsibility for your actions.

Rock is a dynamic medium and rockfalls are frequent. In the mountains the weather changes quickly, climbs change unpredictably; blocks, flakes and holds become loose and fall off, rock becomes vegetated and dirty, in situ gear deteriorates or disappears. Even a minor change can have a dramatic effect on the difficulty or seriousness of a route. There can be no presumption that any given climb will be found in the condition described. It is therefore essential that climbers judge the seriousness or difficulty of any route before committing themselves.

While every effort is made to present accurate information, the descriptions, grades and comments provided in this guidebook are compiled from a number of sources. They may contain errors, are subjective or may have changed and should not be relied on. Neither the FRCC nor anyone involved with the production of this guide can be held responsible for any inaccuracies, omissions or mistakes, nor liable for any personal or third party injuries or damage, howsoever caused, arising from the use of this information.

FRCC GUIDES

Instructions for downloading and printing.

The mini-guides and crag pdfs can be downloaded to your smartphone or tablet

1. click on the link <https://www.frcc.co.uk/mini-guide-downloads/>
2. scroll through the menu
3. select the pdf you want by clicking the link
4. a new window opens with the contents of the pdf
5. on your computer select Print or Export and print or save the pdf
6. on your smartphone or tablet choose send and choose a destination

Printing

A5 pdfs can be printed 2 pages side-by-side on A4 paper

Each crag starts at the top of a new page so, to save paper and ink, you can choose which pages (Crag) to print.

To keep you informed and updated we are publishing crag and mini-guides to the area. Our pdfs are constantly updated to provide accurate and up to date information about new developments in the Lakes. All of this information is collated by volunteers from the FRCC Guidebook Team. These downloads supplement our comprehensive and selected guidebooks:

FRCC WIRED GUIDES

- Lakes Sport & Slate
- Lake District Rock

FRCC GUIDES

Black Crag - Stakes Pass

OS Ref: NY 258 081

Alt: 420m

A small buttress providing some very pleasant low grade routes on immaculate Langdale rock. The long but gentle approach is rewarded with a superb sunny outlook. All routes are clean and dry fast after any rain.

Approach

From the ODG, amble up Mickleden. At the footbridge, head up the Stake Pass footpath until level with the crag. A small hawthorn tree on the right of the path provides a good indication when to strike left across the fell to reach the base of the crag.

Descent

Easily to the right side of the crag plus there is an in-situ abseil station at the top of the crag.

Uphill 60 minutes SOUTH EAST facing

Black Crag, Stake Pass - Left Hand Side

1 Not Now S † New 22m

The short wall left of the holly tree.

7.08.2023 M Scrowston
Solo

2 Maybe Later HS 4b † New 31m

The thin cracks above the holly tree. Start at the left end of a grassy ledge. A thin steep crack leads to easier climbing above.

20.07.2023 M Scrowston, M Withers

3 Central Buttress MVS 4b † New 35m

★★

Start from the right-hand end of the grassy ledge. Pull steeply up left to a small ledge then traverse left to gain the centre of the buttress. The wall above leads to a small triangular niche. A step up via finger pockets leads to easier climbing up the centre of the buttress.

A direct start to [Central Buttress](#) or [Two Grooves](#) can be climbed by the more adventurous via the steep, strenuous but well-protected wall at 5b.

20.07.2023 M Scrowston, M Withers

3.09.23 Direct Start - PC Bennett. M Scrowston.

4 Two Grooves S † New 35m

★

Start as for [Central Buttress](#). Pull up left to access a left-slanting groove; follow this to a steepening. Step left to finish up the second groove and wall above.

20.07.2023 M Scrowston, M Withers

5 Rowan Ridge D † New 40m

Is it a climb or a scramble? A problematical short slab leads to a grass ledge. Follow the crest of the ridge passing a small rowan tree.

7.07.2023 M Scrowston

Solo

Black Crag, Stake Pass - Right Hand Side

6 Eastern Corner MVS 4b † New 32m

★★

Easy climbing leads up to the obvious corner groove. Climb the short slab and corner direct.

20.07.2023 M Scrowston, M Withers

7 Umwelt S † New 32m

An interesting journey that improves with height. 2m right of the corner, a slim pillar leads to a steep wall. Move up the wall then left into a groove. Enjoy the fine steep rough arête above.

7.07.2023 M Scrowston
